INTERSHIPS**AICTE CERTIFIED INTERNSHIP-EDUNET FOUNDATION****June 2025 -July 2025**

Completed a government-approved Virtual Internship in Artificial Intelligence and Machine Learning offered by AICTE in collaboration with Eduskills Academy. Gained hands-on experience in Machine Learning model development, training, and deployment while working on practical AI/ML applications. Enhanced understanding of modern AI workflows, data processing, and predictive modeling techniques, and was awarded an A Grade for consistent performance and successful completion of the internship.

PROJECTS**Portfolio - Web development** [Live](#) | [GitHub](#)

My personal portfolio showcasing my projects, skills, education, achievements, and certificates.

Garbage Classification Using Transfer Learning [GitHub](#)

- Built a garbage image classification model using EfficientNetV2B2 and Transfer Learning.
- Improved accuracy through preprocessing and hyperparameter tuning.
- Deployed using Gradio for real-time predictions.

Blood Donation & Hospital Coordination System [Live](#) | [GitHub](#)

- Developed a MERN stack platform for blood donation and hospital inventory management.
- Implemented JWT authentication and role-based access control.
- Added nearby hospital request handling and Docker deployment.
